The sender is responsible for correctly declaring the weight and contents of the shipment. If differences are found, the shipment risks being delayed or detained by the authorities in the country of dispatch, destination or transit. All shipments are invoiced according to the weight and dimensions found in the sorting hubs.

Items containing goods that are shipped to countries (except the European Union, Switzerland, Norway and Iceland) must always be sorted, handed over and indicated on the bag label as a package or Encombrand (E), regardless of the format and / or actual weight.

Goods

All contents for international mail that cannot be defined as a document are parcels. This includes any e-mail item with gadget or sample of goods.

For the correspondence of goods outside the European Union, a CN22 document will be completed by TCE.

Documents

A document is an item of only written or printed information that cannot be traded, so has no commercial value.

Invoicing

Rates are expressed in EUR without VAT. Monthly invoicing in RON at the BNR rate.

Rates

Rates are available taking into account the communicated weight and volume limitations. The differences in weight or volume found in the sorting hubs will be invoiced by the weight or volume found.
