Efficient Storage and Fulfillment Solutions for Online Businesses

In today's fast-paced e-commerce environment, businesses require streamlined logistics solutions to maintain customer satisfaction and operational efficiency. Our Storage and Fulfillment service is designed to help online retailers manage inventory, process orders, and expedite deliveries while reducing operational costs.

Core Activities within the Fulfillment Service

Receiving Goods: We handle inbound shipments, ensuring accurate quantity checks and inventory placement.

Inventory Management: Our system provides real-time tracking of stock levels, preventing overstocking or shortages.

Secure Storage: Goods are stored in optimal conditions, maintaining product integrity and accessibility.

Order Processing: Upon order confirmation, items are quickly retrieved, packed, and prepared for dispatch.

Packing and Labeling: Orders are carefully packed and labeled according to courier specifications, ensuring safe transportation.

Shipping Coordination: Orders are dispatched via our trusted courier network, ensuring fast and reliable deliveries.

Returns Management: We handle customer returns efficiently, reducing processing time and enhancing customer experience.

Advantages of Using Our Fulfillment Services

- ✓ **Reduced Delivery Costs:** By consolidating shipments and optimizing logistics, we help businesses lower shipping expenses.
- ✓ **Faster Transit Times:** Strategically located warehouses ensure quick dispatch and delivery, improving customer satisfaction.
- ✓ **Scalability:** Businesses can expand operations without worrying about storage constraints or logistics challenges.
- ✓ **Automation & Integration:** Seamless integration with e-commerce platforms allows for real-time inventory and order updates.
- ✓ **Focus on Growth:** With fulfillment handled externally, businesses can concentrate on marketing, sales, and customer engagement.

By leveraging our fulfillment services, online retailers can boost efficiency, reduce costs, and enhance customer experience, ensuring a competitive edge in the digital marketplace.

The service refers to storage, pick, pack and delivery preparation for general goods that do not require special authorizations (like food, chemical, excise, tobacco, alcohol or pyrotechnic materials).

The service is offered depending on the available storage capacity and is made available in our own warehouses.

The service and responsibility starts from the reception of the goods in our warehouse and the communication to the customer of the received stock.

The offer is expressed in EUR without VAT (VAT is applied depending on the country of invoicing and the legislation in force) - and is valid for 30 days from the date of transmission.
